

Statement from American Honda Motor Co., Inc.
Regarding NHTSA Announcement on 5/19/2015

American Honda is aware that the NHTSA has announced a formal defect determination by Takata related to certain front airbag inflators installed in multiple automakers' vehicles sold in the United States. Many of these inflators have already been included in previous Honda safety improvement campaigns or recalls. Honda is currently reviewing the information released today to determine what new actions may be required to further ensure the safety of our customers.

In the interim, Honda will continue all efforts to complete vehicle repairs under several national and regional recalls and safety improvement campaigns. Owners of Honda and Acura vehicles can verify their vehicles' current recall status by visiting www.recalls.honda.com for Honda owners or www.recalls.acura.com for Acura owners or by calling the appropriate customer service office, 1-800-999-1009 for Honda or 1-800-382-2238 for Acura and pressing option 4.
